General information:

The Department of Infectious Diseases and Travel Medicine, University Hospital Pilsen, has been organizing the Czech Congress on HIV/AIDS with international participation in Pilsen for 8 years, (previously a symposium on World AIDS Day in Pilsen) one-day in 2014, 2015, 2016 and two-days in 2017, 2018, 2019, 2021, 2022).

The meeting of professionals from various specialties will provide a space for passing on information in the form of lectures and workshops on the prevention, testing and treatment of HIV infection.

We believe that this professional event will be beneficial in solving the current epidemiological situation in the incidence of HIV infection in the Czech Republic.

The event has the ambition to build on previous successful meetings of experts in Poděbrady "AIDS, drugs and us", of course in the actual conditions and topics in 2020.

The organization of the interdisciplinary conference in Poděbrady was also supported by members of the working group as a separate activity.

Topics of the scientific program:

Basic research in the field of HIV / AIDS in the Czech Republic and in the world

Experience of HIV centers - case reports of interesting cases

Experience with PrEP

News in ART / early indication of ART, optimized and new approaches to ART (conclusions of CROI, IAS and others)

Experience with non-standard ART regimens, intensification and change of treatment, parenteral ART

Development of HIV resistance to ART in the Czech Republic and in the world

Side effects and complications arising from ART Prevention and treatment of opportunistic infections

Changes in immunity during HIV / AIDS

Vaccination of HIV + persons

Non AIDS infections / sexually transmitted diseases / coinfection HBV, HCV Tumors (not) associated with HIV

Care for HIV positive women and children, treatment of HIV in pregnancy

Aging of the HIV positive population
